Manak Nagar, Lucknow-226011.

No. EL/3.2.1

Dated: March, 1984.

MODIFICATION SHEET NO. RDSO/WAM4/138

OIL AND HEAT RESISTANCE HOSE FOR EXHAUSTERS
EXHAUST PIPE APPLICATION.

1. Object of modification.

A number of problems have been experienced on the existing rubber hose pipe connection connecting exhausters to the exhaust pipe. This is because the material used for flexible pipe is rubber and it perishes on account of high exhaust air temperature and oil. This modification sheet suggests alternative pipes for this application.

2. Work to be carried out.

Replace the existing rubber flexible pipes with the flexible pipes conforming to following specification :-

Type PFA, Galvanised steel flexible metallic hose with continuous extra heavy asbestos packing.

3. Application.

For exhausters' exhaust pipe application.

4. Material required.

Metallic flexible pipes as per para 2 above.

5. Recommended source of supply.

M/s Zaver Chand Gaskwad Pvt. Ltd.,
Post Box No. 95, Padra Road, Vadodara (India).

6. Agency for implementation.

All Electric Loco Sheds and shops.

7. Distribution.

As per list enclosed.

As per list.

(Kewal Kumar)
for Director General (Elect).
