**(S&T Directorate)**

**EXPRESSION OF INTEREST**

RDSO is the sole Research Design and Standards Organization of Indian Railways, dedicated to create & adopt technology solutions for Indian Railways. Signal & Telecom Directorate of RDSO is engaged in design, development and introduction of appropriate technology for equipment related to S&T System. The Directorate is involved in evolving designs & standards to improve the reliability & availability of Signalling and Telecommunication system of Indian Railways.

RDSO is interested in development of **Location Referencing System for Kavach(The Indian Railways Automatic Train Protection System)** to obtain the location information of track, signals, OHE masts, gradients and other assets quickly and accurately. The functional requirements of the desired product and proforma for response have been enclosed.

Firms/Organizations who have enough experience and capabilities in the field and have ISO certificate and are interested in developing said item are requested to see the details on the RDSO website [www.rdsolndianrailways.gov.in](http://www.rdsolndianrailways.gov.in) > Expression of Interest (EOI). The interested firms/organizations are requested to submit details in the prescribed format attached herewith a period of 30 days from the date of publication of EOI, to the address mentioned below:
