## **IMPORTANT INSTRUCTIONS FOR USING VENDOR DIRECTORY**

- 1.0 Scope:** This vendor directory deal with critical and safety items for which vendors are approved by Quality Assurance (Mech.), Wagon, Carriage, Motive Power & M&C Directorates of RDSO. The QA(Mech.) Directorate deals specifically with certain items only of Mechanical Engineering (pertaining to Wagon, Motive Power, Carriage and M&C). Items approved by different directorates are grouped and published.
- 1.1** Procurement of structural steel items by railway Board from RDSO approved sources has been done away with. (Railway Boards letter No. RS(S)/2011/747/1 dt.11.8.2011)
- 1.2** In case of technical/vendor approval clarification, or any other query, the procuring agency shall directly contact the concerned RDSO Directorate undertaking vendor approval. It is the responsibility of procuring agency to obtain any clarification (from technical Directorates of RDSO) & refer to the latest amendments/alterations to Specifications & Drawings, during procurement of items mentioned in this vendor directory.
- 1.3** Footnotes, wherever, provided may be referred to for additional information.
- 2.0 Categories of Items:** Column'd' of the index table indicates the category in which the item falls. As per the directives of the Board issued vide letter number 99/RS(G)709/1Pt.I dated 11.03.05, the categories are defined as under:

<b>Category</b>	<b>Vendor Registration &amp; Approving Authority</b>	<b>Inspection</b>	<b>Vendor Development</b>
Category-I	RDSO	RDSO/RITES	RDSO
Category-II	RDSO	RDSO	RDSO
Category-III	RDSO for wagon & Coaching items & PUs for Diesel items	RDSO/RITES	PU & RDSO

- (i) For category-III items, PUs are also permitted to develop new sources. In all such cases the first inspection of the bulk procurement must be carried out by RDSO and after final approval of the vendor on successful completion of the first bulk order, the vendor be incorporated in RDSO's approved vendor list without any need for reassessment by RDSO.
- (ii) In case of Diesel items, the PUs may develop and register vendor which are essential to continue the ongoing indigenization programme for the locomotives.
- (iii) Periodic re-certification of all vendors included in RDSO's vendor list will be done only RDSO.
- 3.0 Vendor details:** To facilitate the procuring agency in nominating the inspecting agency, a region-wise list of vendors, indicating the Zonal Office of QA (Mech) Directorate doing the purchase inspection, is provided in this vendor directory. This vendor directory also indicates the latest available phone number, fax number and e-mail address of the vendors. This region-wise list is only for the general guidance of procuring agencies and is in no way meant to restrict the choice of vendors during tendering by Railways, on regional basis.
- 3.1** The annual production capacities of the vendors have been indicated in the vendor directory, to the extent available. These capacities are the maximum production capacities for the bottleneck activity in the manufacturing process for each item, when the manufacturer devotes his entire manufacturing capability towards manufacturing the Particular item only. These figures are dynamic and may change from time to time, as the vendors keep on making adjustments in their product-wise capacity. The production capacity figures indicated in this vendor directory are in no way meant to influence the decisions of Tender Committees while deciding tenders.

---	---	---

- 4.0 Vendor's Responsibility:** If due to any oversight/typographical error/any other reason, a vendor has been wrongly placed in Part-I or Part-II for a particular item without actually being issued approval certificate by RDSO, then vendor should immediately:
- Inform RDSO about the wrong status.
  - The vendor should not accept any purchase order or P.O. quantity more than that allowed for Part-II (as the case may be) from Railways against the wrong status. In case, it is found that the vendor has taken more order quantity against wrong status without having a valid certificate for that status (Part-I/ Part-II) stringent action of permanent delisting shall be taken besides other legal action.
  - In case of accident etc. on this account i.e. taking orders for an item for which he is not approved or taking more quantity than allowed as per his actual status the firm shall also be taken up against relevant provisions of IPC for causing accidents/injury to passenger etc.
- 5.0 Changes in Vendor Directory:** Approvals granted in the intervening period between the issue of this directory and the next directory to be issued should be considered as valid on the basis of the approval letters issued by competent authority of RDSO. Such changes in the vendor directory, like addition / deletion / upgradation / downgradation would be made available through monthly amendments. vendor directory & its subsequent monthly amendments and changes made after amendment which are available at the RDSO web-portal [www.rds.indianrailways.gov.in](http://www.rds.indianrailways.gov.in) accessible through Internet
- 5.1** Whenever inspection of item(s), for which a vendor is approved, is withheld / suspended, the status of the firm shall remain unchanged i.e. for all purposes, the approval status of the vendor shall be as indicated in vendor directory.
- 6.0 Order Supply Quantity in Part-I & Part-II status:** The vendors approved for manufacture and supply of various components are divided in two Parts i.e. Part-I & Part-II. The criteria are as below:
- Part-I:** *This is the regular category of approval. The firms in this category have been assessed to possess requisite infrastructure to produce consistently quality material up to the assessed production capacity with regular monitoring of quality assurance system.*
- Part-II:** *This is the initial category of approval which has been granted based on assessment of infrastructural facilities available and satisfactory demonstration of production of samples as per specification. The firms possess the requisite infrastructure but their capability to consistently produce the quality material giving satisfactory service life in field is yet to be established. The firm can also be under Part-II category due to down gradation from Part-I category owing to specific cause.*
- The procuring agencies shall consider placement of orders on these vendors (Part-I & Part-II) in accordance with Railway Board's directives issued from time to time. Some of the letters issued by Railway Board in this regard are:
- Railway Board's Letter No. 99/RS(G)/709/1 dated 06.09.1999
  - Railway Board's Letter No. 99/RS(G)/709/1 dated 16.09.1999
  - Railway Board's Letter No. 99/RS(G)/709/1Pt.I dated 28.04.2004
  - Railway Board's Letter No. 99/RS(G)/709/1 dated 05.05.2006
  - Railway Board's Letter No. 99/RS(G)/709/1Pt.1 dated 29.06.2007
  - Railway Board's Letter No. 99/RS(G)/709/1 dated 06.12.2007
- However, procuring agency should also refer further latest instructions, if any, issued by Railway Board.
- 7.0 Destructive Testing during purchase inspection:** Some of the items require destructive testing during purchase inspection. The samples consumed during this testing are required to be accounted in the total quantity supplied and the payment has to be made as indicated in Indian Railways Standard Condition of Contract (Para 417 of IR code for Stores department) Para No. 1308 which read as : *"Stores Expended in Test– Unless otherwise provided for in the contract if the test proves satisfactory and the stores or any instalment thereof is accepted, the quantity of the stores or materials expended in the test will be deemed to have been taken delivery of by the Purchaser and be paid for as such."* Since the samples consumed during destructive testing can not be utilized on rolling stock by the consignee therefore it is considered to inform the number of samples required for destructive testing in a course of normal inspection for various items in vendor directory. Such details are made available in the table under heading "sample size required for destructive

testing” at the end of this vendor directory. Railways may consider accounting of this quantity (stores expended in test) while placing the purchase order, if desired.

- 8.0 Procedure to be followed for rejection of material by consignee and for its clearance:** The guidelines to be followed after rejection of material by consignee and for its clearance have been issued by Railway Board vide letter No.2000/RS(G)/379/2 dated 13.03.2009. Accordingly wherever material is rejected, the material rejection advice/rejection memo should be sent to all concerned, recovery of the payment made if any, joint inspection of rejected lot of goods should be held with pre-inspecting agency & firm and observation of joint inspection be recorded in standard format no. QM-F-7.1-18 (with latest version) of RDSO and signed jointly.

In case of replacement supply against the rejected lot of goods, the same should be pre-inspected by the pre-inspecting agency prior to the acceptance of the same by the consignee. Firm may be permitted to rectify the rejected goods in its premises after depositing the payment already made against the same. After rectification/replacement of the material the rejection advice should be withdrawn under advice to all concerned.

- 8.1 Procedure to be followed if samples are picked up from consignee end by RDSO or any vigilance organization:** In case of samples are picked up from consignee end by RDSO or any vigilance organization, three samples shall be picked up and initially 1<sup>st</sup> sample shall be tested and if it is passed to conform to the requirements of the specification/drawings, no more tests need to be done.

However, as soon as 1<sup>st</sup> sample fails, consignee shall be advised about the same with the direction that no further material from the suspect lot shall be issued/consumed. Decision on 2<sup>nd</sup>/3<sup>rd</sup> sample to be taken within four weeks. In case 2<sup>nd</sup>/3<sup>rd</sup> sample fails, then the said lot shall be considered as rejected. Consignee shall be informed immediately and the further action shall be taken by the consignee as per Railway Board's letter No.2000/RS(G)/379/2 dated 13.03.2009 (excluding para 3.0) for material inspected by RDSO.

- 9.0 Contact Addresses for clarification:**

Field units shall obtain clarification on matters related to vendor approval, specifications & drawings from the concerned directorate which undertake vendor approval of the item. QA(Mech) Dte undertake multi-sourcing of items transferred from design directorates viz Motive Power, Carriage, Wagon & M&C Dte. As such, on technical matters relating to specification/drawing of QA(Mech) controlled items can also be directly obtained from the concerned design directorate. The items are grouped directorate wise and the designation of the Director controlling the items is indicated in the last column 'e' of index page.

- 9.1 Office address and phone no. of different Directorates are given below:**

***Sub: Cartel formation by approved vendors.***

A number of references have been received from Railways/PUs regarding cartel formation by approved vendors and consequent substantial increase in rates in tenders. In such cases, even the negotiations have not helped in obtaining significant reduction in prices. This issue was discussed in detail in 56<sup>th</sup> Conference of Controller of stores at Railway Board on 13<sup>th</sup>/14<sup>th</sup> June, 2002 and it emerged that most of the approved vendors are taking undue advantage of Railways policy of bulk quantity procurement only from approved sources.

2. After having considered the matter in detail, it has been decided that the tender documents may include following conditions.
  - a) Wherever all or most of the approved firms quote equal rates and cartel formation is suspected, Railways reserve the right to place order on one or more firms with exclusion of the rest without assigning any reasons thereof.

वेण्डर डायरेक्टरी -क्यूएम -एम-7.1-1 Vendor Directory - QM-M-7.1-1	वैधता - 01 जनवरी 2014 से 30 जून 2014 तक Validity - 01.01.2014 to 30.06.2014	पृष्ठ सं0 6 / 216 Page 6 of 216
--	--	------------------------------------

- b) Firms are expected to quote for a quantity not less than 50% of tendered quantity. Offers for quantity less than 50% of tendered quantity will be considered unresponsive and liable to be rejected in case cartel formation is suspected. Railways, however, reserve the right to order on one or more firm any quantity.
- c) The firms who quote in cartel may be warned that their names are likely to be deleted from list of approved sources.
3. Selection of one or more firms as per Para 2(a) above, may be on the basis of past performance records, capability, capacity, quality performance, location after sales service response etc. subject to rates being considered reasonable. Wherever tendered quantity is quite large and the capacity of approved firms individually is small, minimum 50% quantity limit as per para 2 (b) may be suitably modified in tender conditions. Further, Railways may report the details of firms found involved in forming cartel to source approving authority for considering down gradation/deletion of names of such firms from list of approved sources.
4. The instructions contained in Board's letter no. 99/RS(G)/709/1. dt 6.9.99 of ordering not more than 15% of quantity of Part II approved sources and 5% of quantity on new source are to be followed in normal circumstances. Wherever there is suspected cartel formation from approved sources, after recording the reasons, railways are permitted to place orders on Part II sources and new sources beyond 15% and 5% respectively.
5. Despite above measures, if there is not success in breaking cartel, further recourse as may be deemed fit, including taking up the matter with MRTP commission or proposed competition commission of India(as and when it is set up) may be considered.
6. This issue with concurrence of finance directorate of Ministry of Railways.

**NOTE:-**

1. Approval of wire and flux has been delinked. Wire of Particular grade of any manufacturer can be used with flux of same grade of any other manufacturer and hence procurement of wire and flux can be done separately. However, effort shall be made to procure wire and flux from the same manufacturer, if available so that responsibility of quality can be fixed to a single source.
2. All the grades of fluxes are for Radiographic quality weld joints produced by Multirun as well as Two run welding technique.
